October Technical Data Intake Meeting

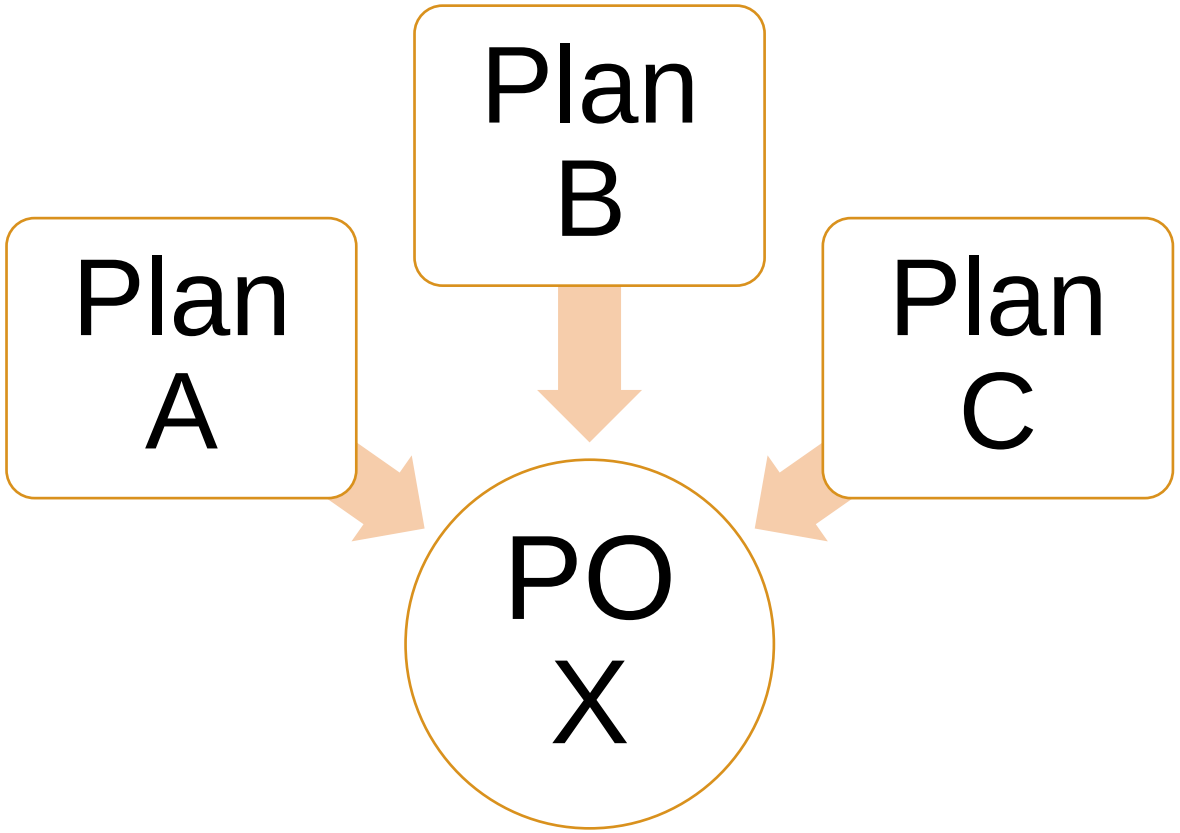
October 28, 2021

Gabrielle Torres

The Participation Confirmation process ensures that IHA has all the health plan and provider organization information needed for successful AMP program data collection, aggregation, and reporting.

AMP Master serves as roadmap for AMP data submission

Plan-PO contract agreement across AMP for Transunion and Onpoint data pipelines



- AMP data is aggregated at the PO level
- For correct aggregation, all contracted AMP plans must agree on all AMP's 200 participating POs
- Data Submission Roadmap
  - Transunion: prospective for MY21 submission
  - Onpoint: retrospective for MY21 member identifier file

Participants are asked to:

1

Update the HP profile

2

Confirm contracts the HP has in place with POs

- Focus on the changes from previous year

3

Update AMP contacts

- HP access to AMP Analytics Portal

Please note: IHA will only report results for HPs and POs that have confirmed contracts. If contracts are missing, HPs may receive incomplete data. Additionally, POs without confirmed HP contracts will not receive results for the measurement year and, subsequently, may be left out of incentive payments or awards.
